

Teaching Log

Session #: 2 Date of Session: November 18, 2019 and January 03, 2020 # of hours: 1h30

Type of education activity (1:1 ambulatory, program meeting, etc.) / Name of education program: Presentation of my

Scoping Review

Location / hospital*: Nov 18 at University of Toronto and Jan 24 in Quebec City

Student's Initials / # of participants*: 15 and 5

Education level of student / participants (UG, PG, etc.):* Residents and physicians

Positive aspects of session: As I knew my subject very well, I was able to make my presentation without my written notes.

Over the last few months, my English has improved a lot. In addition, I made a nice power point, which made the presentation

more enjoyable. As I particularly like this topic, my presentation was very enthusiastic.

Difficulties of session: Nov 18: To respect the time allotted, I spoke a little too quickly and my pronunciation was not always

Perfect.

Jan 24: This presentation was made in French. The difficulties are not the same. Unfortunately I had not translated my Power

Point into French. Sometimes it was more difficult for my colleagues to follow my presentation with the visual support.

Reflection and interpretation of session (analysis): Overall, my two presentations went very well. I was in control of the

subject and I was well prepared. However, to make it easier for people to understand, I would benefit from speaking less

quickly in English. For my presentation in French, I realized that even though my colleagues are bilingual it is not easy to follow

a presenter who speaks French and a Power Point in English.

Consideration of future strategies for managing similar sessions: Practice my presentation by considering the time

allocated and practice my pronunciation with an English-speaking friend.

For my presentations in French, I will translate my Power Point from English to French.
